6719 LONGLIFE

6719

Premium synthetic engine oil for modern petrol and turbo diesel engines with pump-injector units as well with or without diesel particulate filters (DPF, FAP). Provides high pump ability at cold cranking. Has optimal viscosity at wide-ranging temperatures. Effectively prevents from wear-out and provides extreme cleanliness of the engine components. Used in engines with prolonged oil-change intervals (Long Life) and without it. Meets the requirements of all leading car manufacturers.
